## FIS PTA Presents Family Science Night

We are excited to bring Family Science Night to FIS. This year's theme is "Weather". We will be sorted into 3 groups and will need to follow a rotation format in order for all participants to be involved in each experiment. Each station will take about 30 minutes and will include:

- A demonstration with a weather person and a fun experiment.
- A make and take weather instrument station
- Snacks and video/exhibit area.

Please let us know if you will be able to attend by filling out the bottom portion and returning it to your child's teacher by January 20<sup>th</sup>. Please remember that at least one parent must accompany your child(ren).

The program will be Friday Night, January 29, 2010 and start promptly at 6:30 p.m.

Linda Byrd  
2<sup>nd</sup> Vice President/Variety Show
